Position Description
Business Analyst

Geoscape

LAST UPDATED: May 2022

LOCATION: Canberra

ABOUT THE ROLE

The Business Analyst sits within a development team working alongside Product Managers, Software Engineers, Spatial Analyst and Business Stakeholders to shape how we build and deliver spatial data.

The Business Analyst is responsible for understanding and documenting the end-to-end product development process and meeting the needs of our customers, by solving their problems with fit for purpose solutions. You'll work with the team executing technical solutions and driving product goals, while assisting with the Quality Assurance of delivered work.

WHO WE'RE LOOKING FOR

A creative problem-solver with a strong ability to understand the needs of our customers and communicate those needs in both technical and non-technical language.

You'll bring:

- 2+ years of experience in similar roles
- Exceptional communication skills, including both written and oral communication.
- Excellent presentation skills
- The ability to identify the root causes of our customers problems
- The ability to elicit requirements and understand our business on a fundamental level
- Excellent stakeholder management skills
- Practical experience working with Jira and Confluence
- Core agile experience
- Experience in creating user stories and acceptance criteria

Importantly, we need you to be a role model of Geoscape's values and enhance our already impressive team culture.

It would be advantageous but not essential if you have experience with:

- Geospatial data
- Tableau

Tools We Use

Some of the tools we use in our day-to-day work include:

- Jira
- Confluence
- Tableau

- Salesforce
- Microsoft 365

JOIN OUR TEAM OF INNOVATORS

Data was once an abstract idea. Today it's woven through our lives, linking the physical and the digital, informing the choices we make in rapidly evolving social and geographical landscapes.

Geoscape Australia is a trusted source of accessible location data, and an independent and self-funded company owned by the governments of Australia.

Promoting innovation is our cause. In the data-driven economy, our data powers new technologies, products and processes, improves productivity and stimulates economic growth.

With a history of collaboration and a culture of shared thinking, we push beyond what we know today to approach new challenges with a fresh perspective.

The result? For businesses and governments, the data required to make better decisions. For our people, the chance to build a meaningful career solving real-world problems.

OUR VALUES

- **Passionate about People**. We're passionate about making a difference and putting people first in the decisions we make.
